

Build. Secure. Run.

The power to grow your business.

Whether your business is related to hosting, web design, web and application development, software development or any other digital services, becoming a Plesk Partner will let you grow your revenues and take your business to the next level.

Why become a Plesk Partner?

A partnership with Plesk is more than just reselling licenses to others, or using Plesk on a couple of servers. Plesk lets you focus on business growth, rather than server administration, and eases time-consuming tasks in website and security management. More than 2500 Plesk Partners around the globe are already enjoying the benefits scheme that is made for companies of any size. Together we take your business to the next level.

Resell

Resell Plesk as a layer on top of your infrastructure to serve the needs of your customers, and differentiate yourself from the competition.

Hosters, Service Providers, MSPs

Give your customers the ability to accomplish what they can't do today. Bundle Plesk with your services and generate maximum ROI by offering solutions your customers want and need today.

Use

Whether you're with one of the big Cloud Service Providers, a local hosting company or run your own infrastructure – Plesk is more than just a control panel. It allows you to run your business securely and automate time-consuming tasks.

Agencies, web designers, web developers, MSPs, hosters and service providers

Use Plesk to reduce server administration time and enable rock solid server-to-site security with just a few clicks. Mass-manage multiple WordPress sites, code on a ready-to-code environment or benefit from role-based user management to safely handle multiple projects at the same time.

Develop

Develop an extension and integrate with Plesk to extend your reach.

Anyone who wants to integrate with Plesk

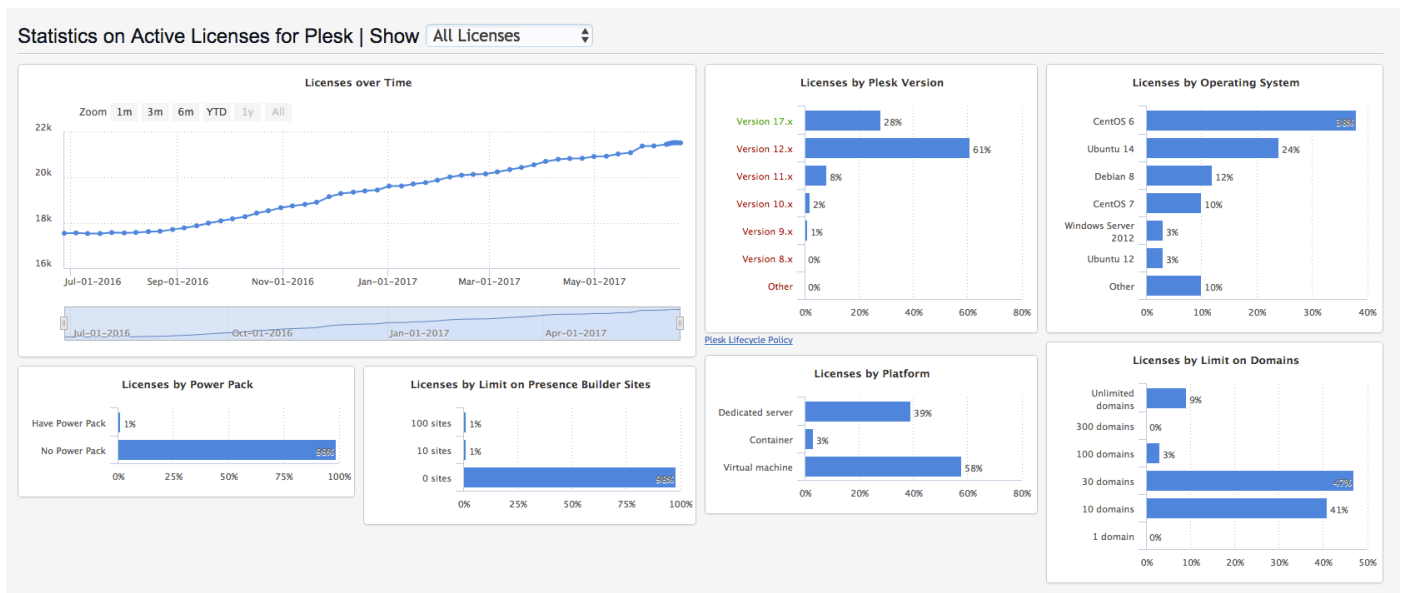

Integrate your solution to our fast growing extension catalogue and gain access to 2500+ hosting providers and thousands of web professionals around the globe. Extending your reach with Plesk is easier than you think.

We want you to be successful.

Signing your new partnership with Plesk is just the beginning of a successful business relationship and we promise that you will never have to walk alone. We know the industry and carefully monitor both market and technology trends for your benefit. As a Plesk partner you have access to a dedicated team of experts who will happily share everything you need to know to get started, implement targeted solutions in your core market(s) and successfully differentiate from your nearest competitors. We have a lot more to share besides our industry expertise and will make the knowledge available to you – guaranteed. Reach out to new heights with the Plesk partner success team.

Partner Central

Performance is key so we created Partner Central for you. It's core function allows you to activate new Plesk licenses and mass-manage existing ones. But there is more. Connect via API to automate your license processing and improve your customer's buying experience. Monitor your day-to-day operations and have relevant numbers right at your fingertips. We are committed to further develop Partner Central and add more useful features. Are you missing anything? Just let us know.

What partners say about Plesk

"Plesk Onyx is a great developing tool for IT professionals. Its new features ease most of the daily tasks in website administration, even if they are managing a huge number of sites created with different apps and technologies. In Arsys we are focused on facilitating the day-to-day work of technical teams on their way to the Cloud, so Plesk Onyx is the perfect complement to our solutions"

[\(Susana Juan, Sales Manager of Cloud & Servers, Arsys, Spain\)](#)

"I like to think that the strength and power of Plesk is at its core and the flexibility and functionality is in its extensions."

[\(Jamin Andrews, CEO Conetix, Australia\)](#)

Plesk Partner Program Benefits

For Partners developing extensions

Build your extension

Make it your way

Plesk Extensions open [SDK](#) lets you integrate all your features and services.

Quick and simple

Create your extension with our straightforward SDK and open [API](#). Our Plesk specialists and technology partners will be on hand to help every step of the way.

Complete flexibility

Decide the level of simplicity or sophistication, from simple builds using SSO linked to 3rd party services, to fully-featured, fully-integrated native experiences for the Plesk ecosystem.

Sell your extensions

Reach millions of potential customers

Open new revenue streams and sell your extension through our 2500 service provider partners and over 377,000 Plesk servers hosting over 11 million websites.

One-stop management and licensing

Manage your extension from a central entry point, sell through our licensing system, and then market it through Plesk channels.

Success through collaboration

We'll create a joint business case with a joint go-to-market strategy that differentiates and targets web professionals and service providers worldwide.

Promote your extension

One place for joint marketing

List your extensions on the Plesk Extensions Catalog, bundle them with complementary products and services, and bring extra value to your customers.

Multi-channel, multi-media

Launch joint marketing and sales campaigns through social media, blogs, email campaigns and outreaching activities.
